博德明燃气采暖热水炉

Bodmin wall mounted gas boiler

公司简介

Company brief

江苏思博林热能技术有限公司，坐落于江苏海安经济技术开发区，是一家专业生产燃气采暖热水炉的大型现代化高新技术企业。

公司引进意大利全套原装生产线和试验检测设备，我们生产的燃气采暖热水炉，由12kW到46kW各种型号多达10多个品种，目前我公司生产的燃气采暖热水炉产品，已经远销俄罗斯、乌克兰、格鲁吉亚，阿塞拜疆，伊朗，哈萨克斯坦，乌兹别克斯坦等十多个国家，并在这些国家积累了10多年的经验和好评，我们将继续为用户提供质量更加舒适，节能的优质产品。

我司产品通过了ISO9001质量认证以及欧盟CE等相关认证。

我司创建以来公司一直以用户至上、追求完美、不断创新，满足客户的供热、节能、环保为宗旨。我们将为客户提供质量一流的产品和完善周到的售后服务。

江苏思博林热能技术有限公司愿与您真诚合作、携手共进，为全球的环境保护和大众的生活温暖做出贡献！

Jiangsu Spring Thermal Technology Co., Ltd is located in the Nantong Hai'an National economic and technology development area, Jiangsu province, as a professional manufacturer of wall mounted gas boiler, it is a modern and high technology enterprise

We have introduced a full set of original production line from Italy, other inspection equipment and testing device. We produce various types of wall hung gas boiler from 12kw to 46kw with European style, different design for you to choose. Spring boiler has been produced and sold in China since 2009, now our boilers are well accepted in Russia, Ukraine, Georgia, Azerbaijan, Iran, Kazakhstan, Uzbekistan, and so on. We have got a good reputation on domestic market after 10 years sales and production. And we will provide more reliable, stable, energy saving products

All of our products certified by ISO 9001 and CE standard

Customer first, Pursuit of perfection, Continuous innovation, Energy saving as our principle, we would like to cooperate with you sincerely, contribute to warmth of peoples' life and global environment protection.

博德明燃气采暖热水炉，源自意大利。产品性能达到欧洲等级标准；方便环保、噪音低、结构紧凑、既适合住宅独立供热改造，也适合新装工程；既适合高档公寓楼，也适合独栋别墅或联排住宅。

Bodmin wall hung gas boiler, technology from Italy and conform to EU standard

ECO friendly, low noise, compact structure, could be used for apartment project and individual villa

【F】燃气采暖热水炉

F Series Wall mounted gas boiler

产品特性：

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【M】燃气采暖热水炉

M Series Wall mounted gas boiler

产品特性：

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【R】燃气采暖热水炉

R Series Wall mounted gas boiler

安全
Safe

可靠
Reliable

节能
Energy saving

产品特性：

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【A】燃气采暖热水炉

A Series Wall mounted gas boiler

安全
Safe

可靠
Reliable

节能
Energy saving

产品特性：

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【C】燃气采暖热水炉 C Series Wall mounted gas boiler

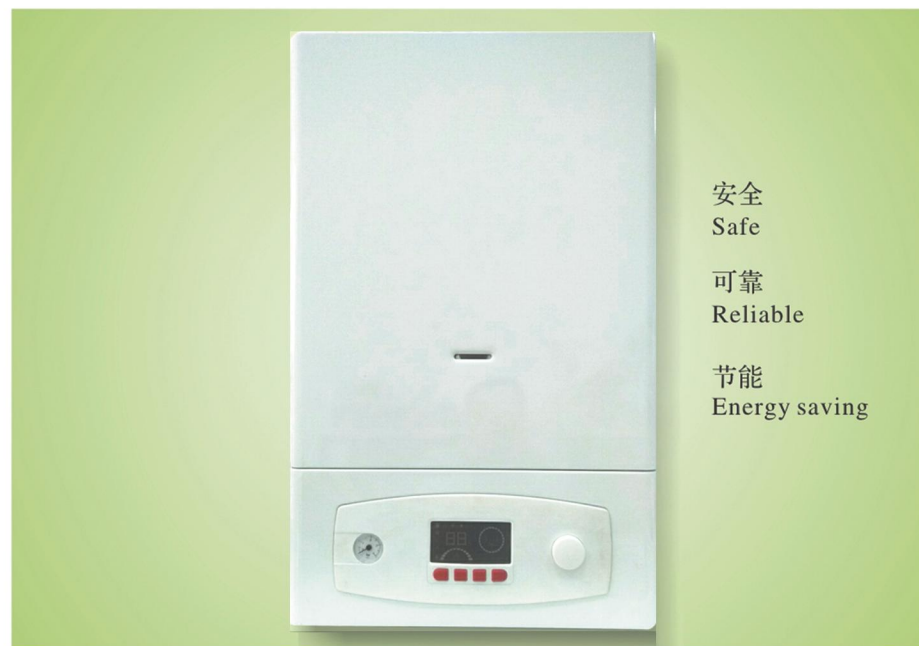

产品特性：

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【D】燃气采暖热水炉 D Series Wall mounted gas boiler

产品特性：

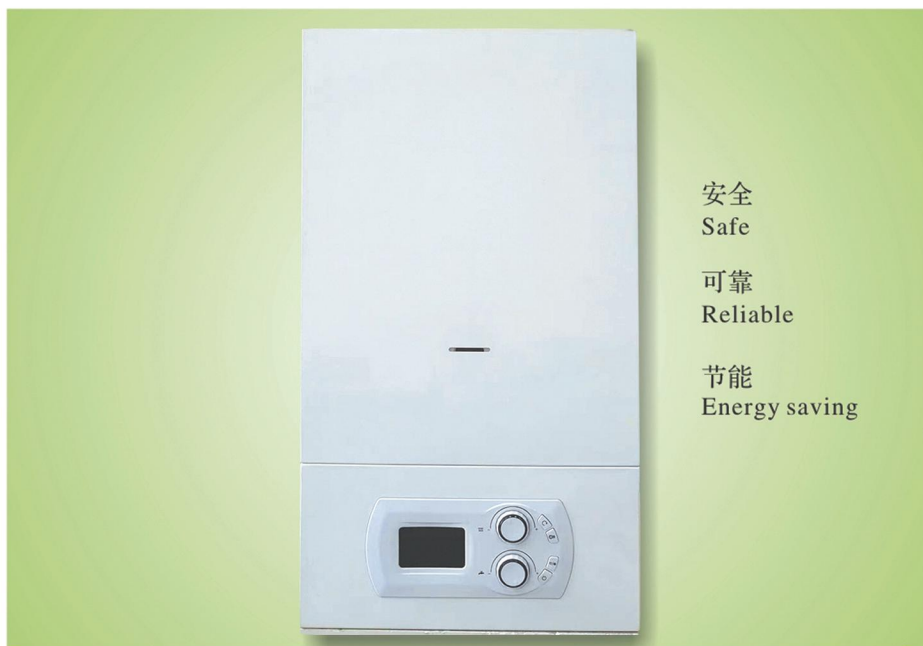

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【T】燃气采暖热水炉

T Series Wall mounted gas boiler

产品特性：

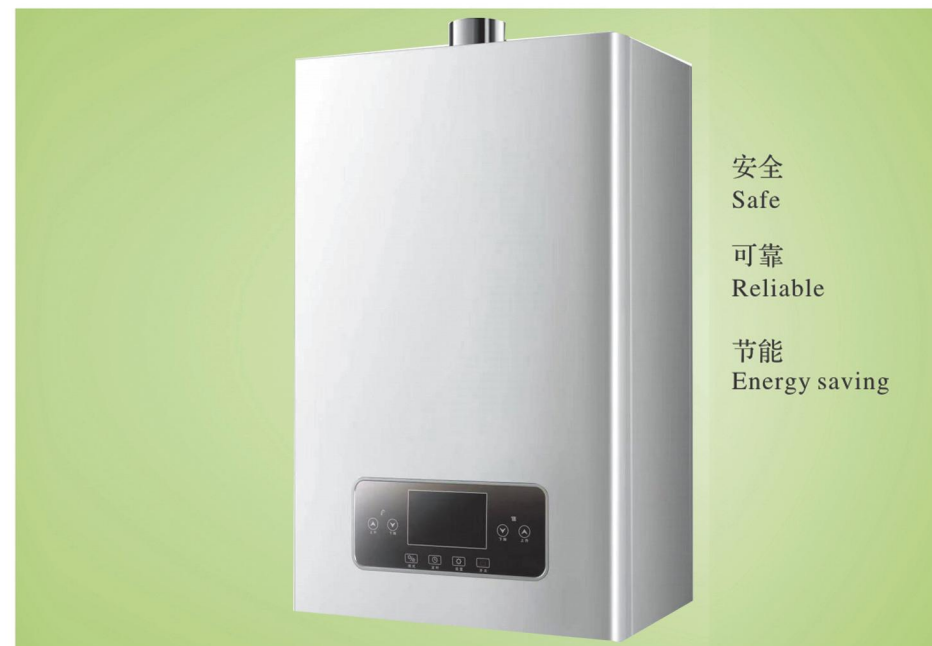

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【K】燃气采暖热水炉

K Series Wall mounted gas boiler

产品特性：

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【E】燃气采暖热水炉

E Series Wall mounted gas boiler

产品特性：

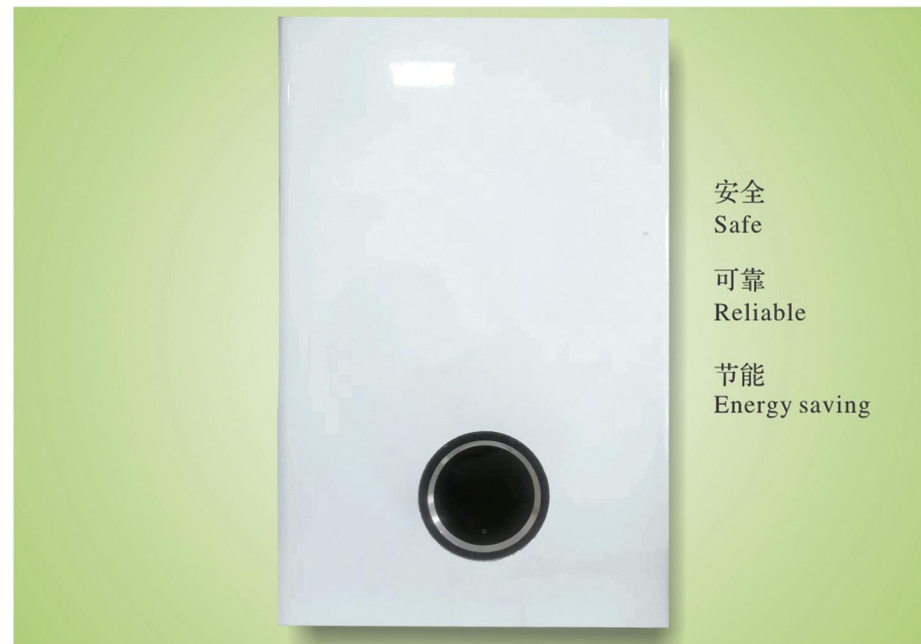

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【L】燃气采暖热水炉

L Series Wall mounted gas boiler

产品特性：

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【N】燃气采暖热水炉

N Series Wall mounted gas boiler

产品特性：

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

【G】燃气采暖热水炉

G Series Wall mounted gas boiler

产品特性：

欧洲技术时尚外观
供暖和热水双功能
高能效低能耗
静音工作
智能经济控制系统
便捷操作液晶屏显示
实时定时设计
远程控制可选
高品质产品配置

Product characteristics:

-European Technology, Fashionable appearance design
-Provide both heating and shower water
-High efficiency and gas-saving
-Quietly working
-Intelligent and economical control system
-Easy operation with digital LCD screen
-Four section timer
-Remote controller optional
-High quality components with CE certificates

参数

Technical Specification

Manufacturer 生产商		Jiangsu Spring Thermal Technology Co., Ltd						
Product name 产品名称	Wall Hung Gas Boiler							
Production licence 生产许可证	XK21-005-00868							
Model 型号	L1PB16	L1PB20	L1PB24	L1PB28	L1PB32	L1PB40	L1PB46	
Rated power KW 额定功率	16	20	24	28	32	40	46	
Min thermal input KW 最小热输入	4.8	6	7.2	8.4	9.6	12	13.8	
Rated heating Output power KW 额定供暖热输出	14.64	18.2	22.15	25.9	29.31	36.64	41.86	
Min thermal output KW 最小热输出	4.4	5.5	6.6	7.7	8.7	10.9	12.56	
Electricity supply V/Hz/W 额定电压频率	220/50/120	220/50/120	220/50/120	220/50/120	220/50/130	220/50/130	220/50/130	
Defence grade 防水等级	1Px4D							
Gas pressure Pa 燃气压力/帕	1500~3000(Natural gas)							
Gas classify 燃气种类	Gas(12T)							
Gas Consumption M ³ 燃气消耗	Natural gas 0.08M ³ /kw/h							
reference heating area m ² 供暖参考面积	100	140	170	200	230	300	350	
water outlet temperature for heating °C 供暖温度	30-80 C							
water outlet temperature for hot water °C 热水温度	30-60 C							
hot water capability(ΔT30°C) Kg /min 热水供应	6.7	8.3	10	11.7	13.3	16.7	19.9	
Minimum water flow L/min 最小热水流量/升	3							
hot water proper pressure Mpa 热水压力	0.05-0.6							
Heating system proper pressure Mpa 供暖压力	0.05-0.3							
Pump lift m 水泵扬程	5m/7m							
pipe connection G"管道接口尺寸	Heating 3/4 Hot water 1/2 Gas 3/4							
Net Weight kg 产品净重	35	36	37	43	48	50	52	
Dimension/mm(product)产品尺寸	740*410*295	740*410*295	740*410*295	740*470*300	740*510*320	740*560*320	740*590*320	
Loading Quantities(20'GP)装箱数量/20英尺	160	160	160	140	130	125	125	
Loading Quantities(40'HQ) 装箱数量/40英尺	420	420	420	380	340	330	310	
flue pipes(mm)烟管尺寸	60/100mm							

销售/售后服务网络 Sales/after-sales service net

目前我公司生产的燃气采暖热水炉产品，在国内已经在十多个省有经销网店，国外已经远销俄罗斯、乌克兰、格鲁吉亚、阿塞拜疆、伊朗、哈萨克斯坦、乌兹别克斯坦等十多个国家，并在这些国家积累了10多年的经验和好评，我们将继续为用户提供质量更加舒适，节能的优质产品

Spring boiler has a wide sales net in China ,have wholesalers and retailers more than 10 province in China ,and well accepted in Russia, Ukraine, Georgia, Azerbaijan, Iran, Kazakhstan, Uzbekistan, and so on. We have got a good reputation on domestic market after 10 years sales and production. nd we will provide more reliable, stable, energy saving products

我们的服务目标：

提供全方位、顾客满意的服务

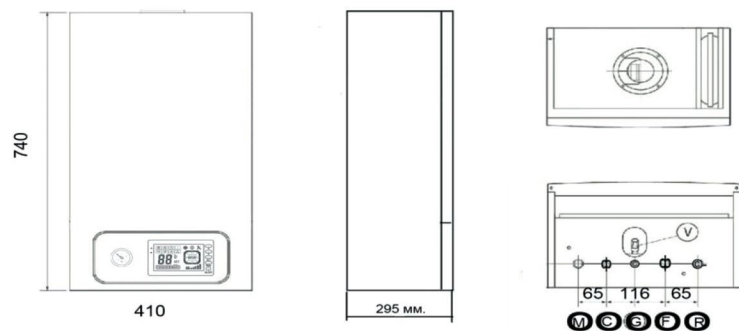

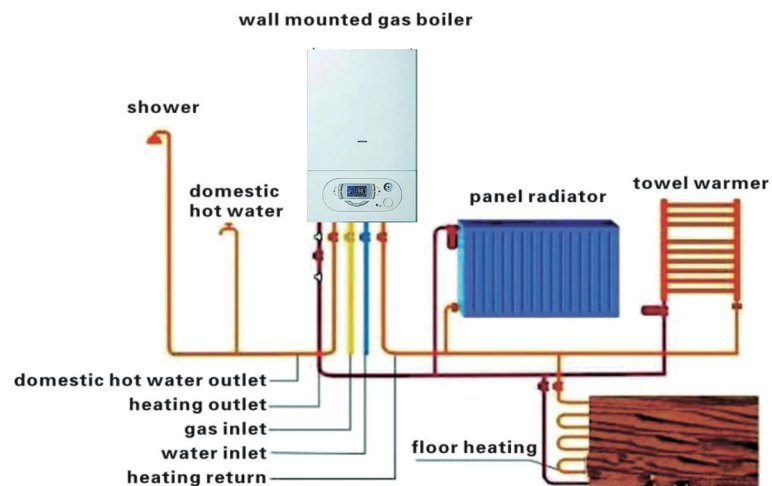

贯穿顾客需求、产品研发、生产制造、售前、售后全过程；圆满解决顾客投诉、化解顾客疑虑。

Our service target:

Provide the service to make the customer satisfied

From customer requirement, product research, production, sales, after-sales service and solution with our experience and professional technology
